Superior Stability

Under 7-day accelerated conditions, Cocrysta® Lutein retained 95% while lutein from other sources decreases by approximately 40%.

Excellent Absorption

Compared with marketed Lutein crystal, Cocrysta® Lutein is 7 times higher in Cmax and 6 times higher in AUC.

Excellent in-use Stability

Simulating daily use, after one month, Cocrysta® Lutein capsules remain stable, with more than 99% of the active ingredient retained, while only 5.2% of the active ingredient remained in the commercially available tablets and only 1.4% in the commercially available capsules.
